

Real Estate Legal Compliance

This Legal Compliance Course will review many of the major Connecticut Real Estate Regulations and Connecticut General Statutes a Broker needs to understand and follow in the course of their daily real estate practice and real estate business. Detailed explanations, interpretations, and tips are provided to help attendees understand the complex language and concepts of Connecticut real estate law. This course is one of the required courses for obtaining a Connecticut Broker's License, and is an essential review course for already licensed Brokers who want a refresher on Connecticut law and, in particular, provisions which Brokers need to be vigilant about when supervising and training their sales agents.

This program meets the minimum requirements as set forth by Connecticut's Real Estate Commission and is approved for 15 hours of Broker pre-licensing credit. This is one of the two mandatory 15 hour classes required to get your Broker license.
